

We strive to provide cutting edge, high performance products for the ecological consumer

Go Green!

These strong, light weight, natural fiberboard products are made of recycled corrugated cardboard with less than 10% FSC virgin fibers. In addition, these products are all direct-print ready. All EcoCOR products are recyclable and re-pulpable when used with our UV curable inks. So rest assured that at the end of a display's useful life it will not take up valuable landfill space.

Quality Certified Product

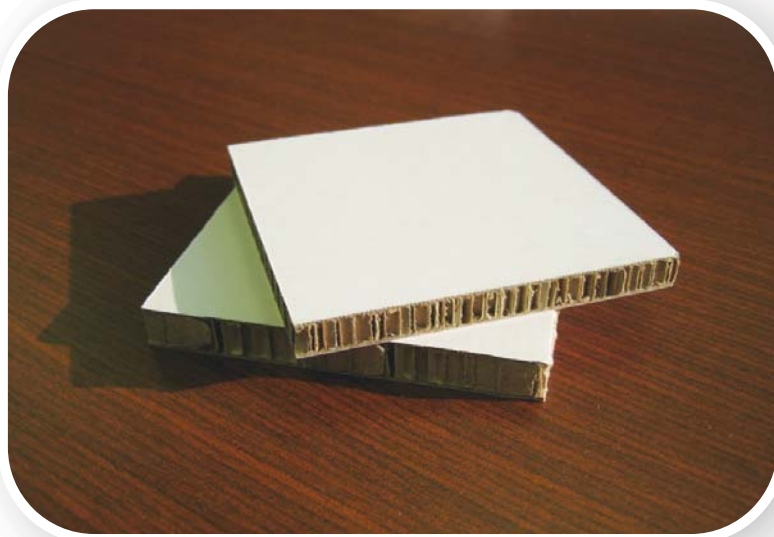

- ISO 9001:2000
- QS 9000
- ISO 14001:2004

Manufactured from 99.8% recycled paper waste.

Paper liners are bleached using a safe, non-chlorinated process.

EcoCOR products can be recycled by any mainstream recycling center.

EcoCOR products are biodegradable and 100% VOC free.
